

A screenshot of a Windows desktop. On the left, a terminal window titled "C:\Windows\System32\cmd.exe - php artisan serve" is open. It shows the output of the command "php artisan serve" in a Laravel project. The output includes messages about updating composer.json, running composer update, and installing dependencies. A red arrow points from the terminal output to the Word document on the right. The Word document is titled "AaBbCcDd AaBbCc" and shows the "Editing" ribbon. The taskbar at the bottom displays various application icons, including the Start button, File Explorer, Word, and several other apps. The system clock in the bottom right corner shows the time as 5:52 AM on 25/07/2025.
